Objective

- I am seeking a software engineering position that will test my knowledge of Java as well as constantly provide new challenges that improve my ability as a developer.

Relevant Skills and Experience

- Highly skilled in self-initiation, critical thinking, problem solving, and fostering team orientation.
- 4 years of development experience in an Agile environment.
- Well experienced with developing enterprise-level object-oriented programs in Java and C#.

Work Experience

Optum – Software Engineer - Eden Prairie, MN   **Oct 2018 - Present**

- Developed database cache to offload thousands of daily calls to systems settings database.
  - Environment: Java 8, IntelliJ IDEA Ultimate 2018.1.4, MySQL 5.7.28, RabbitMQ 3.7.19

Optum – Associate Software Engineer - Eden Prairie, MN   **Aug 2018 - Oct 2018**

- Responsible for remediating critical issues in existing code bases.
  - Environment: ASP.NET 4.5, Visual Studio 2017 15.8.x, HPE Fortify

Optum – Applications Developer II - Eden Prairie, MN   **Jan 2018 - Aug 2018**

- Developed REST API to enhance user experience for site admins when sending company credit card requests to bank affiliate.
  - Environment: ASP.NET 4.5, Visual Studio 2017 15.8.x, Team Foundation Server 15.x
- Developed batch process for complying with General Data Protection Regulation (GDPR) by identifying and purging data of European employees that is no longer being processed for technical and organizational purposes.
  - Environment: ASP.NET 4.0, Visual Studio 2017 15.x

Optum – Tech Development Program Senior Associate - Eden Prairie, MN   **Nov 2016 - Jan 2018**

- Built and deployed internal web portal for employees to allocate lockers in agile workspaces.
  - Environment: Node.js, HTML5, CSS3, Angular, MySQL, OpenShift Enterprise, GitHub Enterprise
- Developed suites of automated test cases for existing web applications in an effort towards 100% ATDD.
  - Environment: Java SE 7, Selenium, Cucumber, Apache Maven, IntelliJ IDEA

Education

St. Cloud State University – Bachelor of Science, Computer Science   **Aug 2012 - Sep 2016**

- Worked 40+ hours per week while attending school full-time
- Paid for 100% of college expenses out-of-pocket
